Progress of the project:

The progress of our project as of October 28, 2025 are:

1. We brainstorm on how the outline of our final project once we push through the code.

2. Start drafting of the code

3. Writing the pseudocode and drawing the flowchart.

Contribution of members:	
1. JOEL ALMIROL	- Attempt in having a application draft code - Proposed a solution on where the platform is designed to efficiently manage funds. - Doing The flowchart
2. Clifford Doplayna	- Created a draft of the pseudo code for our program - Revised some parts in focus point of our introduction
3. PAULA ESGUERRA	- Revise problem, focus point and solution in part of the introduction. - Drafting on the Objectives.
4. Jeff Cacas	- Revised some parts in introduction part - Did the "**THEPROJECT**" - Start drafting of code
